

What am I looking at?	Soil Sample 1	Soil Sample 2
What colour is the soil?		
What is the texture of the soil?		
What size are the particles/clumps in the		
Is the soil wet or dry?		
Is the soil porous?		
How much water does the soil let through in 5 minutes?		
What type of soil is it? (clay, sand etc)		
Is there any plant or animal material present?		
Would this be a good soil for roots to anchor a plant?
